

MANUAL TESTING PROJECT

Website: <https://www.inter-auto.ro/>

FĂRCAȘ RAREȘ FLAVIUS CRISTIAN

For this manual testing project, I chose to work on the official website of RMB Inter Auto which is the largest network of dealers and car service nationwide and a regional representative for seven of the most important brands in the car market: Mercedes-Benz, Mitsubishi, Ford, Hyundai, Jaguar and Land Rover.

The pages that I chose to test are the **Home Page** where the user can see the services offered by the company and the **“Autovehicule” Page** where the user can see all the vehicles offered for sale by the company.

I will start with a list that includes every functionality of the **Home Page** and the **“Autovehicule” Page**:

Home Page functionalities

- Header buttons
- RMB title button
- The 3 buttons above the header
- First sliding advertisement
- Dot buttons under the first sliding advertisement
- Pictures on the sliding advertisement related to every dot
- “Autovehicule noi”
- Second sliding advertisement
- Dot buttons under the second sliding advertisement
- Pictures on the second sliding advertisement related to every dot
- Vehicle brand logo buttons
- “Autovehicule rulate”
- “Evaluare auto rulate”
- Newsletter
- “Locatii” button
- “Solicita test drive” button
- “Programare service” button
- “Carriere” button
- “Tiriac auto” logo button
- Page footer buttons
- Home Page on half of the screen

“Autovehicule” Page functionalities

For the “Autovehicule” Page I skipped testing the header and footer buttons because I already tested them for the Home Page.

- Vehicles listed for sale
- “Autovehicule noi” button
- “Autovehicule rulate” button
- “Tip” filter buttons
- “Marca” dropdown options
- “Model” dropdown options
- “An fabricatie” dropdown options
- “Rulaj pana la” dropdown options
- “Combustibil” dropdown options
- “Locatie” dropdown options
- “Sortare” option buttons
- “Filtreaza” button
- Page on half of the screen

Visual Testcases for the Home Page

1	TITLE	Home page Loading	
PRECONDITION		The device must be connected to internet.	
STEPS		EXPECTED RESULT	
The user opens a browser and accesses the URL of the website.		The website loads.	

2	TITLE	Checking the header buttons of the webpage	
PRECONDITION		The user must access the website	
STEPS		EXPECTED RESULT	
The user accesses the URL and visually checks the header buttons		The header buttons that are displayed at the top of the page are named RMB, Autovehicule, Promotii, Servicii, Noutati, Companie, Contact.
